PROFILE

I'm a 21 years old developer that loves technology. I'm always studying and I don't like poorly done work.

Most of the time I spent studying web languages like **HTML**, **CSS** and **JavaScript** and at the moment I'm focused on frameworks like **React.js** and **Next.JS**.

Despite that, I'm not only studying other frameworks like svelteKit, but I'm also trying new areas with flutter and nodeJS development.

I am hardworking, committed to my tasks and self taught. I'm certainly not a Steve Jobs or a Brian Holt, but I'm constantly trying to improve myself.
