

Pedro Velosa

React Front End Developer / Web development enthusiast / Geek

About me

I'm a 21 years old developer that loves technology. I'm always studying and I don't like poorly done work.

Most of the time I spent studying web languages like **HTML5**, **CSS3** and **Javascript** and at the moment I'm focused on frameworks like **ReactJS** and **NextJS**

Despite that, I'm not only studying other frameworks like **svelteKit**, but I'm also trying new areas with **flutter** and **nodeJS** development.

I am hardworking, committed to my tasks and self-taught. I'm certainly not a **Steve Jobs** or a **Brian Holt**, but I'm constantly trying to improve myself.

Work Experience

07/2021 – 02/2022 SÃO PAULO, BRASIL

Lab Monitor **FIAP**

- Assisted students with lab procedures and equipment, ensuring a safe and efficient learning environment.
- Conducted regular maintenance checks on lab equipment to ensure proper functioning and prevent malfunctions.
- Collaborated with lab instructors to develop and implement effective teaching strategies to enhance student learning outcomes.

02/2022 – CURRENTLY SÃO PAULO, BRASIL

Front End Angular Developer **FIAP**

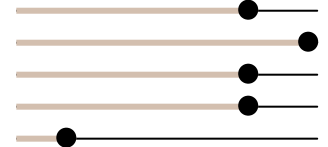

- Developed interactive user interfaces for multiple web applications using Angular framework.
- Collaborated with back-end developers to integrate front-end and back-end functionalities.
- Implemented responsive design and cross-browser compatibility for improved user experience.
