PROFILE

Web developer with passion for the profession. My main technologies are **React.JS**, **Next.JS**, **Typescript** and **Tailwind**. I'm currently learning web animations using **GSAP** and **Framer Motion**.

I have a B2 level of English.

EMPLOYMENT HISTORY

Web Developer, FIAP   São Paulo

Jan 2023 — Present

Developed interactive user interfaces for multiple web applications using Angular. Collaborated with back-end developers to integrate web page features. Implemented responsive design and cross-browser compatibility for better user experience.

Web developer, Health Money   São Paulo

Oct 2023 — Jan 2024

I worked as a freelancer as a web developer for the company Health Money. I implemented new features on the consultant's page. I created new interfaces to make life easier for the customer and the administrator.

Technologies:

- React.JS
- Tailwind
- Typescript
- Firestore

EDUCATION

Master, Computer Engineering   FIAP

Jan 2020 — Present

Computer Engineering student at FIAP, seeking in-depth knowledge in computer systems. Committed to academic excellence, passionate about technology and prepared to face innovative challenges in the area.
